BAD NEWS ERADICATOR

Copyright © 2017, James E. Lukaszewski. All rights reserved.

The Bad News Eradicator was designed to help eliminate defensive words and negative phrases from your speech and writing. Keep the document next your telephone. Take it with you when you travel. Collect your own set of habitual negative phrases and words. List them on the sheet, then create their positive equivalent and get a whole new life. The goal is to create a positive phrase that has the same or fewer words than the negative phrase.

The nature of this discipline, because that's what it is, is to constantly and relentlessly translate and transform the energy of negative language into the power of positive speech or writing. Whenever you have a moment, simply work through the list and develop equivalent positive phrases for each negative phrase. There are many ways to accomplish this; sometimes a negative phrase has a half dozen or more positive equivalent options. The goal is to eradicate the negativity and gain a whole new power over your life.
